

this box will pop up when the question mark is pressed

BAC ?

gender

female male

weight 150 lbs.

start time 00:00

stop time 00:00

current time 00:00

number of drinks

beer liquor wine

calculate

BAC ?

BAC stands for blood alcohol concentration. More information on BAC and rate of time at which liver metabolizes alcohol etc.

okay

calculate

BAC ?

gender

female male

weight 130 lbs.

start time 20:30

stop time 01:30

current time 02:00

number of drinks

beer liquor wine

2 4 0

your current BAC is: ()

You should not be driving

Sat May 11	12	01	
Sun May 12	1	02	AM
Today	2	03	PM
Tue May 14	3	04	
Wed May 15	4	05	

these time slots will use some sort of drop down date picker menu

BAC will be printed out at the end with some sort of specialized message
